

PROJECT PROPOSAL

GREEN SCHOOL CHECKLIST PROGRAM

Name of Project : Green School Checklist Program of Malaysia

Venue : Selangor & Kuala Lumpur, Malaysia

Duration : March 2013 to March 2014

Project Manager : Mohamad Shafiq Bin Adnan

Project Overview

The Green School Checklist Program of Malaysia aims to certify and recognize local education institutions going beyond required measures to serve as models of green and sustainable school. This program focuses on kinder-garden and primary institution to encourage and implement green voluntary actions to conserve, preserve and improve the environment. It will benefit the institutions through several of ways by providing a green checklist to be followed in promoting environmental ethics and responsibilities.

Project Objectives

- 1) To promote environmental awareness and ethics in local education institutions.
- 2) To facilitate local education institutions to integrate environmental responsibility into their operations and school curriculum structure.
- 3) To provide public recognition in environment and sustainable field to exemplary local education system.
